

## MOLD SOLUTION PRODUCTS

### MOLD SOLUTION PRODUCTS™

#### Paintable Release Agent #1504

Support Ended  
2-7-2022

Release for all painting. It permits decorating of components, provides more releases per application at less cost and saves time in high speed plastic production by eliminating the product clean-up operation. It is recommended for use with polystyrene, polycarbonate, Noryl, ABS, PVC and polyolefins.

Net Wt. 11 oz - NO CFC

#### Mold Saver #1706

Support Ended  
2-7-2022

corrosion rate parts to metal with corrosion inhibitors to protect metal surfaces. No sticky residue, cleans, protects, lubricates, and displaces moisture.

Net Wt. 15 oz - NO CFC

#### Tool Towels #7001

Specifically designed and engineered for the plastic molding and mold building environments. TOOL TOWELS wipe away all particles found in normal molding applications. No need to potentially contaminate your mold with a dirty shop rag while cleaning a vent, runner, parting line or the mold while the tool is in production. TOOL TOWELS are designed to clean this grime and more. The best part is how you throw them away! Perfect for all non-porous tool steels, aluminum and most surfaces found in manufacturing environments. Non-abrasive, cloth free and disposable. Works even more effectively when used in conjunction with Mold Degreaser #1605

#### Degreaser #1605

Support Ended  
2-7-2022

ing, effective, no build-up, no grim and no stains are encountered. This strong action product can be sprayed on the surface to breakdown, wash away and clean grease from equipment, work areas, metal parts and any surface needing to be degrease in the manufacturing process only.

Net Wt. 14 oz - NO CFC

#### Silicon Mold Release #1302

Support Ended  
2-7-2022

silicone-type release agent for injection, RIM, rotational extruders and vacuum casting. It can be used with all common resins. This silicone, as well as all others, may interfere with a post-decorating step. Not recommended where painting, metalizing, or bonding of components may be required.

Net Wt. 9 oz - NO CFC
