HPL Handpiece

DiPro Rotary Air Grinder  
Model HPL

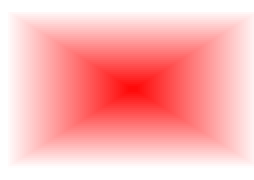

The Engis/DiProfil rotary handpiece is a precision air operated hand machine that delivers 35,000 rpm, yet weighs less than 13 oz. The piston type motor provides constant torque of 0.56 in/lbs. The chuck accommodates the supplied 3/32" & 1/4" collets. It's lightweight, rugged design makes it ideal for polishing molds & grinding dies, as a deburring tool, and other precise handworking operations.

*The HPL handpiece is on sale while supplies last! It is supplied with a 3/32" & 1/4" collet, wrenches and carrying case.*  
*Please note that this must be used with the Dipro-Fog MFB lubricator or an equivalent lubrication/dryer regulator.*

The above set #4A is all you need to start your precision work. It comes with the Dipro -Fog MFB (lubricator-pressure control-air cleaner-water separator unit), five feet of flexible hose, quick disconnect HSL and one bottle of lubricating oil MFA -K.
